J. C. Ayen. Dear Sir,—My little son, four years old has just recovered from a severe attack of muliqueat Scarlot Fever, his throat was rotton, and every person that visited him, pronounced him a dead child. Hawing used your Cherak Perroal in Call forms, in the winter of 1850, for a severe attack of Bronchits, with entire success, I was undeed to try to on my little boy. I gave him a tea-spoon-full every three hours, commencing in the morning, and by ten o'clock at hight. I found a deel ded change for the better, and after three days use, he was subte to eat or drink without palu.

Its use in the above named disease will save many nebild from a premature grave, and relieve the anxiety of manya foul purent. For all affections of the Throat and Lungs. I believe it the best medicine extant. A teeling of the despest gratitude, prompts out in addressing you these lines, but for your outportant discovery, my little boy would now have been in another world.

In. J. C. Ayer. — Since your medictue has been known, here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good It has done. I take pleasure in selling it, because I know that I am giving my customers the worth of the r money, and I feel gratided to seeing the bencht it confers.

Please send me a furiber supply, and helieve me Yours, with respect, JOHN C. WHITLOCK.
P. S. Almost any number of certificates can be some your Cheary Precroant for upwards of one year, and It is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a danger our affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless romedy.

Dr. J. C. Ayer. My dear Sir, — Your medicino is much asto insure and maintain its reputation. I Invariably recommend it for pulmonary affections, as do many of our political physicians.

HOUSE OF REPRESENTATIVES.

Saturnay, Feb. 9, 1856 CORRECTION.—In our report of yesterday's proceedings, in which we give the substance of Mr. McD. FOGLE'S reasons why he would not vote for the fourth resolution, we have printed him incorrectly. He said: "Believing as he did. that Congress had no constitutional power over the question of slavery in any of the States or Territories, &c. while he is printed as having said: "Believing as he did, that Congress had the constitutional power, &c." The reporter had written it correctly, but owing to the great length the proceedings, and the lateness of the hour which they were put in type, the proof sheet as not examined with the attention that has usu-

STATE TREASURER. Mr. BRUCL, from a select committee, to whom was referred the communication of R. C. Wintersmith, Treasurer, made the following re

chapter 36 of the Revised Statutes

The special committee, to whom was referred the communication made to this House by R. C. Wintersmith, Esq., Treasurer of this Commonwealth, report: That they have fully investigated the subject matter of said communication, and have obtained the opinion of the Attorney Gen eral of this Commonwealth, on the construction of the act of the Legislature, under which said Wintersmith received the money mentioned in said communication. Said opinion of the Attorucy General is herewith reported as a part here of; from which it will be seen that it is his opinion that said Wintersmith, as Treasurer of the Commonwealth, had the right to receive said money under said act, which is he actually ex-pended the whole or any portion of it for clerk hire or not, provided that he caused all the duties and business of the office of Treasurer to be pro perly discharged -- and in that opinion this mittee fully concur. This opinion of the Attorney General and the committee is corroborated by the evidence of gentlemen, members of the Legislature, at the time of the enactment of the tatute, that such was then the intention of the

This committee fully and cheerfully exculpate Mr. Wintersmith from any improper conduct in onnection with this matter, or from having any hing which would justify the remotest suspicion of dishonorable or improper conduct on hi of associated improper canada on as parameter this committee are also of opinion that Mr. Wintersmith has faithfully and honestly discharged the duties pertaining to his office. Therefore, the committee report to the flows, for its adoption to the flow.

ion, the following Be it resolved by the General Assembly of the Com nonwealth of Kentucky, That said R. C. Win ersmith, Treasurer of this Commonwealth, has faithfully and properly discharged, and caused to be discharged, all the functions of his office; that had both the legal and moral right to re ecive and appropriate the money drawn by him under the act, approved March 9, 1854; that in doing so, he neither unlawfully nor unjustly appropriated any money of the Commonwealth to his own private purposes; and that no censure whatever can properly be attached to his conduct in connection therewith.

H. W. BRI'CE, Ch'm. ATTORNEY GENERAL'S OPINION.

ATTORNEY GENERAL'S OFFICE, t February 1, 1856. Sir-I have received yours of to-day's date questing my opinion of the proper construction the act "concerning the Auditor's Office and he Treasurer's Ollice, approved March 9, 1854. The act is in these words: "That hereafter ther hall be an additional allowance of one thousand lollars per annum for Clerks' hire in the Audit r's Office; and five hundred dollars per annum to the Treasurer, to enable him to employ the services of a Clerk, to aid him in the performan es of his duties; and the same shall be paid out if the treasury in the same manner that other

It will be perceived there is a slight difference n the language used in the appropriation for 'Terks' hire in the Anditor's Office, and that to the Treasurer. Unlitting that portion of the act relating to the Auditor's office, and it would read: "That hereafter there shall be an allowance of ive hundred dollars to the Treasurer, to enable itm to employ the services of a Clerk to aid

nim in the performance of his duties."

The office of Clerk in the Treasurer's Office anot created by the act. The appropriation is irectly "to the Treasurer," and not to any Clerk whom he might appoint. The Treasurer, in my opinion, was authorized to draw the money from the Treasury, and the manner of its appropriation seems, by the act, to be left to his discretion. gislature did not intend to impose any restriction n the Treasurer as to the manner of applying the money; and the question at last is, whethe the duties of the office have been properly dis charged; and whether they were performed by himself alone, or whether he was sided by one or more clerks, is a matter of no consequence so far as the Commonwealth is concerned. In the judgment of the Legislature, the additional sum of five hundred dollars was necessary to insur-a proper discharge of the duties of the office.

I am, very respectfully, your ob't serv't, JAMES HARLAN. II. W. Bruch, Esq., Ch'm, Ac.
The report and resolution was laid upon the table for one day, under the rule requiring joint resolutions to lie one day on the table.

IT The weather certainly deserves a notice. Its like was never known in Kentucky. For some weeks we have had no thawing in the shade, except once, or perhaps twice, for a few hours; and very little thawing in the sun. The same snow that fell sevon weeks ago still lies upon the ground, with sundry additions since made to it. The same ice then formed still coats the sidevalks upon the shady side of every street.

The mercury has shown throughout that period remarkable attachment to the vicinity of zero; generally playing in a space between that point and fifteen or twenty degrees above, but oceasionally dropping down fifteen or twenty degrees below. Wout the first of last week it went down semi oreasionally. Its first incursion below zero about that time, was on Salurday morning. We do not know how far it went, but we saw it coming back after sunrise. On Sunday morning it took a little deeper excursion into that lower region—a lower region which, unlike the "lower regions" of Pluto, grows colder, and not hotters the farther you penetrate-nor did it ascend across the line at any time throughout the day. On Monday it dipped down still lower, and renched foll eighteen degrees below. On Tues day it dipped down again, but failed, by three de crees, of getting as low as the day before.

Land and water are everywhere bound fast it ce. Omnibusses and waggons loaded with iron cross the Ohio upon the ice at Cincinnati The Mississippi river is obstructed by floating ice as low down as Baton Rouge. The rivers of Texas are frozen over, and ire from the Colorado has been puring at Austin. In short, the South has had a real Northern winter. Ours here in Ken tucky would not disgrace Labrador, except that we lack Labrador's five or six feet of snow; a Canadian would think it just "sensonable;" and a Yankee from Maine woublu't know it from on of his own native winters, except that our fence are not hid by snow, as his his apt to be at this time of year. For ourself, personally, we rather enjoy it. There is about it a smack old times and boyhood's days; for it is very much latter the fashion of those we were "brought up" on, in the Lake Urie region, about the latitude of 42. But it is a terrible winter upon the poor, and a most disastrous one upon the produce dealers and othor business men, who find everything frozen un and obstructed, except the stream of time, which brings the maturity of their bills and acceptances drawn upon intended shipments, forbidden by the

For the Foromorewealth Mr. Porror:-In your paper of the 9th, re porting the proceedings of the House of Representatives on the resolutions offered by the com mittee on Federal Relations as a substitute fo those offered by Mr. A. This, I have no doubt, was an anintentional mistake. My posi tion and opinion on that subject has always been to the contrary, and was so expressed by me in the House, at the time to which your report al

I know of no power of Congress save that which is delegated to it by the Federal Constitution, with such other powers, by implication, as are absolutely necessary to exercise and carry into effect those powers so delegated.

Upon an examination of that Constitution, can lind no power given to Congress over the subject of slavery in the States or Territories of this Union, either expressed or implied. The fourth resolution contained a different doctrine; hence I voted against it, though I heartily approve of every other sentiment therein contained.

The question of slavery and the powers and rights of Congress to interfere with that institution in any of the Territories, I conceive to be a question of vital interest to the South and the Huion-loving men of this confederacy, and should not be overshadowed by any other consideration; and Southern men should speak out boldly and openly on this important question of Southern rights without being trammeled with party prejudices or party, men uses of minor importance.

The Peace Propositions.

The last news from Europe being to the effect that Russia had accepted the propositions for ocace submitted by the Allies, through Count Esterhazy, the Austrian special ambassador, becomes peculiarly interesting to re-examine these propositions, and see what are the precise terms upon which this grand quarrel is said to be adjusted liere are the propositions:

1. DANUBIAN PRINCIPALITIES Complete abolition of the Russian protectorate The Danubian Principalities shall receive an or ganization conformidable to their wishes, to their wants, to their interests, and this new orga tion, respecting which the population itself wil be consulted, shall be recognized by the contract ing powers, and sanctioned by the Sultan as emanating from his soveroign initiative No stat shall be able, under any pretext whitever, nude any form of protectorate, to interfere in the que-tion of the internal administration of the Prine palities; they shall adopt a definitive permanent system demanded by their geographical position and no impediment can be made to their fortify. ing, in the interest of their safety, in such man er as they may deem advisable, their territory gainst foreign aggression.

In exchange for the strong places and territoies occupied by the allied armies, Russia con ents to a rectification of her frontier with Tur key in Europe. It would commence in the vicin ity of Chotym, follow the line of the mountains which extend in a south-easterly direction and terminate at lake Sasik. The line (trace) shall be definitely regulated by the general treaty, and the conceded territory would return to the Prin

cipalities and to the sovereignty of the Porte. II. DANUBE. The freedom of the Dannbe and of its mouths shall be efficaciously assured by European insti-tutions, in which the contracting powers shall be represented, except the particular posi on of the lords of the soil on the banks riverains, which shall be regulated upon the principles established by the Act of the Congress of Vienna as regards the navigation of rivers. Each of the contracting powers shall have the ight to keep one or two small vessels stationed t the mouths of the river, destined to assure the execution of the regulations relative to the free

iom of the Danube III. NEUTRALIZATION OF THE BLACK SEA. This sea shall be open to merchant vesselsequently, no marine military arsenals shall be reated or maintained there. The protection of he commercial and maralime interests of all ma shall be assured in the respective ports of he Black Sea, by the establishment of institution onformblable to intrinational law, and to the enstoms sauctioned in such matters. The two powers which hold the coast, engage themselves a maintain only the number of light vessels of a xed force, necessary for their coast service .-This convention, concluded separately between these two powers, shall form part as an annex of the general treaty after receiving the approval of he contracting parties. This separate conven-ion cannot be annualled or modified without the consent of the signituries of the general treaty The closing of the Straits will admit the excepion applicable to the stationary vessels mention ed in the preceding article.

IV. CHRISTIAN SUBJECTS OF THE PORTE The immunities of the Rayah subjects of the Porte should be religiously preserved, without infringement on the independence and dignity ne Sultan's crown. As deliberations are taking and the Sublime Porte to assure to the Christian subjects of the Sultan their religious and politi-cal rights, Russia shall be invited, when peace is

of our banks that they were "among the most enlightened, honest and honorable eitizens of the State," and yet charged them with deliberately planning and prosecuting, and rejoicing in the sneeess of measures utterly repugnant to the inoral sense of every upright man. This is sistency I pointed out. Has he removed it? Again: He represented the dividend of 7 per cent. by the Bank of Louisville, and of 8 per

ent. by the Northern Bank, to have been deelared out of the profits of the last six months' business; and that these dividends proved that the cost of money borrowed from the banks was from 14 to 16 per cent. per annum, and grew sublime ly indignant as he contemplated such an enor mous pressure upon an "already over-burthened eommerce." I exposed this misrepresentation by showing that the amount of loans was the only true basis upon which to estimate the average east of money borrowed from the banks; and that when thus ascertained, the result, taking the statement of the Northern Bank as the foundation of the argument, was an annual average cost Journal. And how does he meet this argument Simply by an effort to prove that the earnings of the Northern Bank during the last six months affect the point at issue. But it is not true that the the bank embraced in four items) amounted, af-ter deducting the July dividend, to \$447,802 23, and piles he effects on a new principle. and according to the last January statement the He invites special attention to his spinal, liver after deducting the January dividend of a percent. \$105,633 30, \$33, 463 30, showing a diminition of \$39,168 adversarial super care in the capital stock; showing the nett carnings of the bank to have been 6 26-100 upon its capital and not \$1/2 per cent. as figured out by the Journal. The Journal's figures, it would seem, are as little re-liable as its fancies. When the editor takes up a bank statement out of which to construct an ar- February 7-tf. gument, he should be sure that he understands it it, would it not be well for him to prounce the aid of some "acute old bank manager" to assist him?

And addition as evidence to sustain the charges, the large amount of bills held by the banks and solve the present relation. the fiberal dividends they had declared. tempted to show that the evidence adduced did, not sustain the charges, and that the conclusion to which be arrived was, consequently, a mere assumption. How did he dispose of the argument? Does he attempt to show by facts that the rade, manufactures, agriculture and mining prowithin the last few years; and that the increased times, interest will be charge I and they are paid market values of nearly all of the articles which these particulars has not been in proportion to the nerease of the "bill business" transacted by the banks? Not a word of it. He simply contents himself with re-asserting his former assumptions apon that point, and with a sickly attempt at wit

to one having a shorter time to run. The other was the greater difficulty in determining the value to the bank of funds at any given point eight months hence, than two months hence. The lirst reason given he affects to regard as a "discovery" --as something unheard of before, and as idea "too absurd for serious refutation." other he characterizes as "planslible," but "knov ish." I shall not criticise the language he em ploys, but simply remark that it was very appaent, from the former articles in the Journal, that the editor was engaged in the discussion of a subject that he had not studied; and consequently one that he was not acquainted with; and here we have further evidence of the lact. known that the reasons assigned were no new among the simplest medicines known to the profession

by way of exchange on bills payable at four months, than they did on two months bills, and it is contended that this is of itself conclusive evidence of usury. The argument is that exchange has no reference to time, but only to the place of payment. That interest is taken for the time and regulated by it, but exchange should be the same whether a bill has a long or a short time to run. As the exchange on the bill is the difference in the relative value of money at different places, this reasoning would and the money market are staple, and their condition at a future day could be calculated with some certainty. But here, the changes and fluctuations in the money market and in exchange are frequent, and their extent uncertaint. The more distant the time, the greater the uncertainty; and as the hazard is increased by postponing the payment, an increase of premium adequate to the additional risk is naturally and properly demanded."

THE subscriber now offers to the public a NEW STYLE To of picture, far superior to Daguerreotypes, Photographs, or any other kind of pleture. They are termed AMBROTYPES,

The process for which is patented in the United States, Great Britain, and France. These pictures are conceded to be the MOST BEAUTIPUL AND TRUTHFUL ever produced by the Protographic art. The exceeding flueness, depth of light and shinde, and richness of tone, is wonderful. They do not reverse the subject, but represent everything in its true position. They are without the glare of a Daguerreotype, and hence may be seen in any view. They will

KENTUCKY

T is well known that there is great economy in crushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cobwhen properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and farmers, has been their complex arrangement and high cost.

farmers, has been their complex arrangement and high cost.

In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to bave produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by hand, and is applied directly under the centre of the mill.

Any one using these Mills will find a clear snving of ONE QUARTER of their corn over the old plan of feeding. We warrant these Mills to give entire satisfaction. Purchasers may use them for thirty days and if not satisfact, can return them and get their money.

They will grind Corn and Cobas fine as desired, at the following rate per hour, with one horse:

No. 1, 4 to 5 bushels per hour. Weight 350 hs. Price \$25 00.

No. 2, 6 to 8 bushels per hour. Weight 400 hs. Price \$30 00. Adding freight from Louisville.

The above prices includes the complete Mill ready to hitch to without any further expense, and can be set in operation in five minutes time. For sale by E. L. SAMUEL, Nov. 26, 1855.—tf. Frankfort, Ky-

STRAW-CUTTER QUESTION.

MESSRS, J. B. FORD & CO., of the city of New Albany, Min the State of Indiana, claiming to be the owners of Sandford's prateu-right to mannfacture what is known as Sandford's Straw-Cutter, bave soldthe right to manufacture the same to various persons for certain prescribed territories, and they have warued the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time satisfied that the so-called-Sanford patent las fraud, and that it is void, being a palpable piracy and infringement of the patent-right of John Boynton, which bears date 25th day of September. 1833, and has expired. We have been satisfied that the machine denouinated Sanford's perfect Straw-Cutter Is constructed nutaccording to the specifications contained in Boynton's und all this has recently heen decided in the U.S. Circuit Court for the Middle district of Tennessee. Some months since, we sold to B. S. Weller, of Nashville, several of the so-called Sanford Straw-Cutters, which were taken by bim to the State of Tennessee and there sold. Ch's M. Alexander claimed to be the assignee of Sanford's patent for the State of Tennessee from J. B. Ford & Co., and sued Weller on Infringement. Weller defended and insisted that Sanford's patent is void and a piracy on Boynton's, and, as we before and, court and Jury so decided.

We are prepared, as heretofore, to furnish all orders for the Straw-Cutters manufactured by us, and to defend any and every person in selling or using them.

The Etus Insurance Company presents its patrour the very satisfactory condition, of a large increase in cash assets, for the further security of their policies—ali our investments being placed at the uninium uarket value, at the present time of some depression in the standard of same. They are either prime dividend paying stocks, or good, valuable, and clean invostments, yielding moderate interest and income. The standard basis on which the assets have been valued, heing Gold at interest.

at Interest.

Besides this solidity, the Company calls attention to the strength and security it derives from its combined system of Agencies, through its agents having the means of presenting a united phalanx of Experienced Under writers, which has worked, for thirty-seven years, the happlest results to stockholders and claimants for losses nappiest results to stockholders and claimants for losses and enables it to enter the year 1856 with greater prestige for future usefulness than has yet been reached by: really National Insurance Company.
